EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the claims:

In claim 23, line 1, "23" has been changed to --22--.

2. The following is an examiner's statement of reasons for allowance: As expressly stated by applicant in the response dated December 20, 2004, none of the prior art of record taught or suggested the claimed apparatus for formation of a nonwoven product which included the use of a conical alignment guide which is positioned immediately adjacent the drum and immediately adjacent to, and about, the warp yarns and about which the weft yarns are wound prior to falling down upon and being wound about the warp yarns. While the prior art did suggest a conical alignment guide, there is no evidence of record which would have suggested that this conical alignment guide was in fact capable of operating in the manner claimed (i.e. there is no indication that one would have wound the weft yarn about the conical guide as claimed) as the conical guides of the prior art were not wound upon in the fashion claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
